Title	Lift Plan
Project	Giant Magellan Telescope
Customer	Superior Crane Ingersoll Machine Tools
Description	West Bay
Drawn By	Riley Petrone

+ Lift Planning for Estimators to Lift Directors

3D Lift Plan is a crane lift planning and risk management tool featuring the industry leading crane database with accurate OEM load chart data, plus sponsored crane data for owners of Link-Belt, Manitowoc, and other brands.

Easy-to-use tools enable estimators to compare and select cranes for job bids. 3D Lift Plan selects load charts and makes recommendations based on your parameters. With optional iCraneTrax integration, determine if the crane you want is available or already scheduled.

Create a detailed job site by importing images and CAD drawings. Show load weight and dimensions, object clearances, crane travel path, and more.

Develop procedural documentation, including Rigging Lists, Critical Lift Worksheets, Ground Bearing Pressures.

Create Lift Plan movies or integrate with optional 3D Lift Vision for executing lift plans in Virtual Reality mode.

Make the most of 3D Lift Plan with Advanced Features, including Multi-Crane Lift Planning, Advanced Rigging Design, Advanced Jobsite Design. Assess ground bearing pressures and select crane mats. Share 3D Lift Plans with other users.

Optional 3D Lift Vision is the only crane simulat...

About A1A Software

A1A Software develops software and interfaces for the heavy construction industry. The company got it's start by developing the well-known lift planning program called 3D Lift Plan, and it now offers other business management tools specific to the needs of crane and construction equipment owners. 3D Lift Plan is an engineered lift planning tool that is as easy as 1-2-3. It provides realistic 3D graphics, plus accurate and economical crane configurations, so that crane owners can improve safety and profitability of crane operations. iCraneTrax helps crane and heavy equipment owners and managers turn data into useful information with business and equipment management, job tracking, and reporting tools.
